Michael P. Hirsh, MD, FACS, FAAP  
Professor of Surgery and Pediatrics,  
University of Massachusetts Medical School

March 2, 2012

Mr. Jay Gardiner  
Director  
Molly Bish Center  
88 Prescott Street  
Worcester, MA 01605

Dear Mr. Gardiner:

As co-director of the Injury Prevention Program at the UMass Memorial Healthcare Trauma Center, I would like to add my support to the legislation entitled, "Molly's Bill," S1798, which would mandate the conversion of our current license plate # system to one that would include a combination of 4 #'s and common symbols that will make effort in stymieing abduction, solving crimes, hit and run incidents, identifying perpetrators of moving violations or road rage, finding people who fail to follow child and personal restraint laws in MV's and locating missing persons. We urge the Massachusetts State legislature to pass the legislation as a legacy to the tragic loss of Molly Bish and as tribute to her family who seek to make our State safer anyway they can.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael P. Hirsh'.

Michael P. Hirsh, M.D.  
UMass Memorial Children's Medical Center  
Surgeon-in-Chief  
Chief, Pediatric Surgery and Trauma  
Co-Director, Injury Free Worcester Office
